

WHISPER

The final concept of the 7th floor trilogy focuses on late night experience of our guests.

Whisper is a haven in the building where selected guests can retreat when spending time in the building. Designed with inspirations from the French boudoir – an anti chamber restricted to intimate friends – vivid red fabrics rich in pattern and texture give warmth and depth to the space.

In the centre of the feature wall stands one of the restored fireplaces of the original Union Building of 1916, which became Three on the Bund in 2004. The use of lace fabric as curtain and furniture covering further enhance the idea. Lighting fixtures are inspired by classical French brassware. Above the bar counter, a crystal chandelier is a focal point upon arrival. The timber floor pattern is a reference to the Versailles Palace. The ceiling and wall are hand-painted with French pattern to enhance the texture quality of the wall. The cast iron chairs and tables are shaped elegantly as inspired by antique French furniture.

This strong French influence is our perception of New-Orleans, the frenchest American city, with a deep mystical past, outstanding cultural scene, and a diversity of people and thoughts, leading to a constant thought provoking creativity.

Accompanying the environment, a selection of historical cocktails will honor New Orleans and its French heritage, with classical drinks like the Sazerac or French 75, while more sensual crafted signatures like Dita's Kiss or Fleur de Lys will offer a more modern and fresh touch . An extensive array of classic cocktails, prime champagne and top shelf liquors will complete the menu.

An original musical selection, showcasing the evolution of music from Jazz to swing, funk and disco will be uplifted by some unexpected tunes, creating a surprising and unique ambiance.

Whisper is a quaint and private place to meet with a small group for extensive exchanges. It will be a "By Invitation Only" club, with access restricted to Whisper Card Holders and their party.

By invitation only, Whisper is the Bund's Boudoir.
